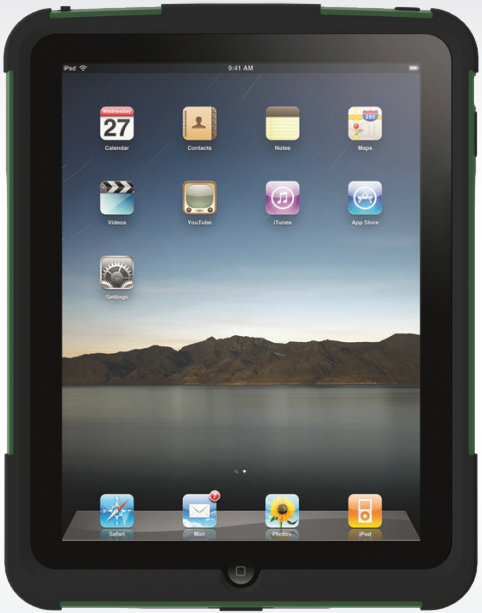
AEGIS SERIES
FOR APPLE IPAD™

TRIDENT CASE™



PROTECTION OF A HIGHER POWER

The Aegis for iPad offers full protection in a slim, minimized design. The case features double-thick silicone at the corners for impact insulation, a durable polycarbonate shell with a smooth, rubberized finish as well as a high-quality screen protector for the full, rugged package.

3LAYERS

KEY FEATURES

DISTINCTIVE CONSTRUCTION

Unlike Trident Case's other series of cases, with the Aegis, the silicone layer is on the inside — in direct contact with the iPad — with a hard polycarbonate shell on the outside.

DROP PROTECTION SYSTEM

The four corners of double-thick silicone insulate the iPad from everything including light bumps to violent drops with a unique, shock-absorbing design.

ANTI-SKID DESIGN

The exposed portions of silicone not only insulate the iPad from drops, but also act as high-friction, anti-skid pads — working when the case is face-up or face-down.

SCREEN PROTECTOR

The Aegis for iPad comes with a scratch and smudge-resistant screen protector – keeping the screen safe without sacrificing responsiveness.

6 Case Colors Available
